<u>Labor</u>		
Technician (per hour)	\$ 65.00	
Lead Technician (per hour)	\$ 90.00	

This price list is not for CAT events. Prices will be negotiated for these events.

- DriExpress technicians can be used for installation and tear down of equipment. We encourage using DriExpress technicians for start up of equipment.
- DriExpress can provide fueling services if needed, but contractor should retain their own fueling service. Otherwise, fueling run through DriExpress will be charged at cost plus 10% overhead and 10% profit.
- These prices do not include mobilization.
- **Mobilization will be estimated up front. Otherwise it will be charged out at \$3.00 per mile from point of origin to the rental location and back.**
- Labor, ducting and fuel will be based on actual usage.
- Rental starts when equipment is dropped off. A rental day is based on a 24 hour period and unless otherwise stated on the contract is based on a 3 day minimum.
- Equipment can be “called off rent” by a phone call to sales representative with exact equipment being pulled off, 12 hours prior to being “off rent”. DriExpress must receive a fax or email with the equipment count that is at the location where it was dropped off with a signature from the contracting party. If DriExpress goes to pick up and those “off rent” items are not there the rental period will continue and another delivery charge will be added to your account that will match the delivery charge outlined in your contract.
